

Rh D Negative

Royal Blood

BY TESS CLARK OF MYTHOS DECODED

Full sources: <https://mythosdecoded.wixsite.com/mythos/e-books>

Humans with Rh D neg type are the **ONLY** life form on Earth that carries the Rh D neg blood type. **Humans with Rh Positive type, DID NOT** get the Rhesus from **apes or monkeys!** It got its name after the macaque monkey when scientists discovered the Rh (Rhesus) Positive blood type in a macaque monkey (I bet it was named after a monkey to confuse people & push the Darwinist theory. Which is also condescending). Some forms of Rhesus molecules are found in **MOST** life forms on Earth, ranging from algae to fish to humans.

Rhesus factor descended from a molecule called Amt. Amt is found in every living thing. Humans with Rh D neg type are the only species that can not reproduce with a similar species of Rh positive blood, without risk of haemolytic disease or death (specially after the first child) as the mother will produce **ANTIBODIES** that attack an Rh positive fetus. This points to Rh negs, and perhaps the blood types A & B being also a different species adapted to another planet (i.e. Titan, Ganymede & or Mars...?)

According to statistics from 2021 between 5 to 8 % of the World population are Rh neg. The US & Britain have 15% Rh neg. Scandinavia, Ireland, and the British Isles show from 16% to 25% Rh negative. Wales & Ireland share a similar Y-chromosome with the Basque. The 10 tribes of Israel migrated into Europe from the Caucasus and Carpathian mountain ranges; the Scythian were known as the Aryans (Noble-royal race); while the "Tribe of Dan" was shipped into Western Europe with the aid of the Phoenicians from the Mediterranean Sea at about the same time. They came into Spain, France (Languedoc Area of France) between 1200 & 800 BC due to many planetary catastrophes.

Blood types and Rh factor by country

Typically when blood is drawn at an [early prenatal visit](#), your blood will be tested to determine both blood type and Rh factor. If you don't know your type, ask your doctor/midwife. The most common blood types are A+ or O+.

Below is a chart showing blood types (A, B, AB, O) and Rh Rhesus status (Rh-positive and Rh-negative) by country. Over 92% of all people are Rh-positive and the rest are Rh-negative.

Red Hair...and Light Skin A Genetic Mutation From Neanderthals

0 Comments DNA, Genetic Mutation, Light skin, Neanderthals, Red Hair

Ancient DNA studies found the Red Hair & Pale skin that modern humans have comes from the Neanderthals (Anunas). Another mtDNA study points Neanderthals became the Basque & Neanderthals were blood type O Rh neg. 50% of Basque have O Rh neg allele. Modern humans have the **MC1R** variants resulting in Red hair & pale skin. Neanderthals had a spectrum of red hair from Auburn to brilliant red to strawberry blond. In Scotland 13% of the population have red hair & over 30% carry the gene. In Ireland 10% have red hair & + 46% carry the gene. The Pics were red haired. 4% of Brits are red haired. There is high percentage of red hair in Ukraine and among Edomites in Germany. Painting & stained glass windows of gods & goddesses depicted them with red/auburn hair. The 'Red Jews' are the tribes that went to Scythia & Tribe of Dan. Elam and David were red haired.

There is a high proportion of red haired Jews in Galicia. Research called **ANU** compared Neanderthal with Homo Sapiens. Homo sapiens had no food collection or tools compared to Neanderthals, who had an advanced society.

Red Hair...and Light Skin A Genetic Mutation From Neanderthals

0 Comments DNA, Genetic Mutation, Light skin, Neanderthals, Red Hair

Neanderthals & Denisovans (Igigi?) are the equivalent of the Anuna Lords, carrying the O Rh neg blood, the Red Hair gene MC1R & the Blue eye gene OCA2. Semites with elongated (dolichocephalic) & large skulls, with large eye sockets & were of larger stature, 2 sets of teeth, 6 fingers/toes, Extra vertebra at tailbone (cauda equina) & extra rib, mouth Toris, low blood pressure/body temperature, etc

There Are Only Two True Eye Colors

All Earthlings had Brown Eyes until the BLUE EYE GENE OCA2 appeared 9,000-6,000 years ago around the NW Black Sea coasts

In humans, there only exists two true eye colors in nature – brown eyes and blue eyes. This is proven through true detoxification. Through true deep detoxification with fruits, herbs, raw foods and fasting, eyes will change to reveal their true color underneath. A common misconception I have seen online is that many people believe all brown eyes will turn blue if they follow a raw vegan diet. This is simply not true. This has been perpetuated with many viral youtube videos of raw foodists saying that their eye color changed - yet unfortunately having no mention, explanation or understanding of iridology in their videos as to why their irises changed. This has led to much confusion in people that have watched these videos, so I'm here to clear the confusion. There are some people that have brown eyes that will simply turn a lighter brown when consuming an all raw vegan diet. There are also some people with eyes that appear brown but that are actually blue underneath. I have seen many of these two types of eyes in my work as a detox specialist with helping many people heal their health issues over the years. Only a skilled detox specialist adept in iridology will be able to determine what someone's true eye color is through certain signs the eyes show. It is also common to see many people within the detox community with true brown eyes say that they have true blue eyes when 9 times out of 10 I see that in actuality they have brown eyes (just very light brown eyes). This is a common rookie mistake because many people - beginner and intermediate iridologists included - find brown eyes harder to read. Blue eyes are normally easier to read since they are naturally lighter in color and do not require as much light as a brown iris to read the signs. It can understandably be tricky for people with brown eyes new to iridology to determine their true eye color. It can often take years of reading many different eyes to notice the patterns of people's true eye colors in order to become a pro at identifying iris color and develop the skill of accurately analyzing the eyes in general. I cannot tell you how many detox specialists have come to me for help in helping them understand how to read irises - even those that have completed courses on iridology! This is because iridology takes strong dedication and many years to master. It is not something that can be learned in a few weeks or a few months. It is a skill that continues to grow and expand, just like when learning an instrument. Not everyone that takes a music class will all of a sudden be an amazing musician. What sets people apart from being great at something to completely mastering it is patience, repetition, experience, wisdom, and time devoted to one's craft - this is the case in detoxification, healing and iridology.

Genetic studies point to the Anuna landing & spreading around the world (see Diodorus Siculus' History of Ancient Civilizations) taking ownership of the land, rounded up earthlings & began all ancient high tech civilizations.

Yellow and Orange in an Iris

Now, a common color that can be found in a brown (or blue) iris is orange. Orange color in a brown iris points to sulfur accumulations in the body. I have noticed so many people have sulfur drug deposits unfortunately since so many people have taken sulfur drugs to suppress their symptoms for years on end. **Sulfur deposits** often appear in extremely sluggish lymphatic systems. Sulfur in fact, suppresses the lymphatic system and can make it more difficult to move lymphatic wastes out of the body. These are usually among the harder cases to heal. Sulfur can be seen as yellow or orange color in a blue iris or as orange in a brown iris – almost always is sulfur seen around the bowel region of an iris. It is extremely important that one's detoxification protocol includes strong herbs to clean out sulfur accumulations. Herbal formulas like the stomach and bowel formula and lymphatic capsules, even chem/metal detox are often necessary to give the body the best chance at clearing out this acidic gas that is responsible for destroying tissue in the body.

So, what exactly is sulfur and how do people end up ingesting it? Simply put, sulfur is an irritant, highly inflammatory gas compound that is an extreme suppressant of the lymphatic system. The lymphatic system is the very system that is responsible for whether you get a disease or not - since 99% of all health issues have their root cause in the stagnation of this system. The lymphatic system is the system that runs all throughout your body - much like the circulatory system - that is responsible for eliminating all acids, obstructions, wastes and toxins from the

body. These acidic wastes are either from cellular wastes in your body or are ingested daily in what you eat, drink, breathe in, or put on your skin. These acid wastes break down tissues in the body if the lymphatic system is not functioning optimally. In those with stagnation in this lymphatic system - this is when we see many health issues arise. Those suffering with many health issues that have been in and out of doctors' offices for years will tell you that they have been given antibiotics time and time again as the solution to their health issues. I have consistently found that many people suffering with "autoimmune diseases" have large amounts of sulfur in their bodies. Those suffering with diseases like fibromyalgia, arthritis, lymes, lupus, and candida overgrowth almost always have sulfur accumulations if they have been down the allopathy road. This is because sulfur is most commonly found in antibiotics! However, even though antibiotics may take away the pain or problem temporarily, it actually makes matters much worse. Anti-biotics are suppressive in their nature. This is all doctors know how to do - is to give people sulfur drugs because they do not understand what is causing their health issues and cannot help them. The only tools the medical community has to address everyone's health issues are suppressive drugs. It is unfortunate, because so many will never find the way to true healing and only know suffering since so many put their faith and trust in doctors, only to have them fail them time and time again. In order to heal

and take away a beneficant and warning symptom on the part of *Nature.*"

Nerve Rings can reveal True Iris Color

Now, those with true brown eyes that take on the detox path will find that their eyes will also change – not to blue – but to a lighter brown color. You can most easily tell that brown eyes are someone's true eye color if they have nerve rings. Nerve rings are signs in the iris that appear as concentric circles in an eye – much like the age rings found in a tree. Nerve rings are also known as stress rings in the iris. Nerve rings always point to individuals that are easily prone to stress. These individuals also usually suffer from anxiety and may often have neurological

weaknesses – pointing to a brain/nerve system weakness and an adrenal gland weakness. The greater number of nerve rings in an iris - the more weakness is seen in the brain/nerve and adrenal glands in the body. These nerve rings have become quite prevalent in today's society as we live in a very stress-filled society. I have seen them in a great number of my clients - especially those that are in their 40s and younger. Observing these nerve rings, I oftentimes can see the true color of the iris underneath making its way through. Nerve rings always appear lighter than the rest of the color of any given iris so they make a good sign to utilize in order to determine iris color. Another rule to always keep in the back of one's mind when examining brown eyes is this: In a true brown eye, you will never find any hints of yellow or green color in the iris. This can be tricky though since some lighting can give an iris the appearance of having yellow or green in a brown eye. An experienced detox specialist will be able to rule this out. A brown iris (in accurate lighting) with any hints of yellow or green is actually a true-blue eye with heavy lymphatic congestion all throughout the body.

Green and Hazel Eyes

With the knowledge that only two true eye colors exist in humans, we will now discuss the existence of green and hazel eyes. Through deep detoxification, anyone with green eyes, hazel eyes or any other variation of eye color has found that their eyes reveal more and more blue as they detox. Through my work in guiding people in their healing, I have seen that green eyes are in actuality blue eyes that either have sulfur/drug deposits appearing as a yellow color - making the eye appear green, or they have an eye of subacute lymphatic congestion (which also appears as yellow in an

iris). Yellow over a blue iris gives the appearance of green - thus having a person with "green" eyes. Those with hazel eyes are also true-blue eyed people - with chronic congestion of lymph on top of their blue color. This congestion appears as (brown) on top of a blue iris and is most often located in the bowel region (just around the pupil of the eye). As lymphatic congestion is cleared out of the body through detoxification with astringent fruits, powerful lymph moving herbs and mono fruit fasting, dry fasting, these types of eyes will always reflect the cleansing effects taking place within the body. However, changing an iris color is easier said than done. The eyes are usually very slow to change color - period. I do often find however that those with strong constitutions – have a strong ability to move wastes out of the body on a **detox protocol** – and will thus have eyes that change at a much faster rate than those with a weaker constitution.

Gums can cause inflammation, migraine, irritability & leaky gut, similarly to pesticides & glyphosate because they disrupt the beneficial gut flora

Gum additives are everywhere in our food supply today. Xanthan and guar gum are by far the most common.

But there are many others too, such as locust bean gum (carob gum), gellan gum, cellulose gum, and relative newcomer tara gum. The savvy shopper is clued into which gum additives to avoid and which are no big deal.

Gums are mostly comprised of indigestible polysaccharides.

Some are produced from plants and some from bacterial fermentation. Others are produced from edible plants and even a few from ornamentals.

Food manufacturers love gums because they have unique properties that add desirable texture and/or shelf life to processed foods. Typical use is for thickening, stabilizing, or emulsifying.

Some are more heat and cold-resistant than others. Others are more acid and pH resistant. Most are utilized as powders.

Gums in Food Seem to Affect Gut Flora

All gum additives appear to exert a possibly powerful influence on the makeup of our gut bacteria.

The full extent of this is not fully studied or understood, but another reason these common food ingredients should be treated as small additions to dishes and meals. They are inappropriate for use as supplements or sources of nutrition.

The [GAPS](#) and [SCD diet](#) prohibit the use of xanthan gum, guar gum, or any gum additives for that matter due to the risk of inflaming the gut and the potential for gut flora disruption.

Iris Color Changes Through a Detox Protocol

Witnessing the changing of your iris color can be exciting and I often find that it helps motivate many people to keep pushing forward in detoxification – whether they notice their eye color changing to blue or a clearer lighter brown or noticing the red capillaries in the sclera finally disappearing as they clear more acids and inflammation out of the body! A good rule of thumb to track the changes in your eyes is to take updated detailed iris photos (with consistent lighting and settings) every 3 – 6 months during your detox to see how much you have achieved in clearing obstructions and healing the

tissues of your organs and glands! The fastest time I have seen irises change significantly was in 3 months in someone with a strong constitution. That being said, changing of iris color is achieved through a deep detoxification protocol with the right diet and herbs, and consistency with raw foods and fasting. A person set in seeing their greatest health achieved in this lifetime must have a strong focus on health and healing with raw vegan foods. This is the best chance one has in healing the body in today's society. Detoxification using iridology as a tool is the most powerful healing path one can walk on. It is the path of true cellular regeneration!

LYMPHATIC SYSTEM

The lymphatic system is a network of tissues and organs that primarily consists of lymph vessels, lymph nodes and lymph. Its primary function is to transport lymph, a clear, colorless fluid containing white blood cells that helps rid the body of toxins, waste and other unwanted materials.

LYMPHATIC SYSTEM

The tonsils, adenoids, spleen and thymus are all part of the lymphatic system.

Tonsils:
A large cluster of lymphatic cells found in the pharynx.

Thymus:
This organ is where T-cells mature. T-cells help destroy infected or cancerous cells.

Lymph nodes:
Produce and store cells that fight infection and disease. There are 600 to 700 lymph nodes in the human body.

Spleen:
The largest lymphatic organ in the body contains white blood cells that fight infection or disease.

LYMPH NODES

These small oval structures are an important component of the body's immune system and help in fighting infections. They function as filters of lymph, catching any debris or cells present in the lymph.

Nuwa and Fuxi

Chinese mother goddess Nüwa married her older brother King Fuxi & she became queen **after Fuxi left Earth**. Fuxi represented Heaven & Nuwa the Earth (Gaia). She created humanity in her likeness (sounds like **Ninhursag & Enki**). The men of clay made with great care, were the ancestors of the nobility. The numerous & 'lower-quality' people created from the mud were the peasants, farmers, and regular workers. Some of the figurines who where the lower class became deformed after rain & catastrophes (Noah's flood / Saturn's nova & mutations?)

She has the body of a snake and the head of a human or is shown as a human or a mermaid. The Chinese dragon also has a snake body. In some places in China, people still believe that a snake found in their courtyard can bring good luck.

People born in the Year of the Snake are considered rational, calm, thoughtful, and loyal to the loved ones.

The Dragon Queens, such as Lilith, Miriam, Bathseba & Mary Magdalene of Elven blood, carry the blood from Lilith. Cain was the son of Enki (Satan) & Eve (Ava). From Cain descend the Jews & line of the Malkut (sovereign Dragons)

They were made evil by the Church: called werewolves, witches, elves, vampires & Faeries.

On the right image Mary Pagia Gorgona, in Lesbos, Greece, is shown as a mermaid, holding Poseidon's Trident denoting lineage from Enki. Tiamat was the Water Serpent the mother goddess made a monster by Marduk

According to Royal genealogist Sir Laurence Gardner, **Vlad Dracul** the impaler was a minion of Sigismund of Luxembourg, he was educated at the Emperor's court in Nuremberg.

Dracul was invested into Societas Draconis. Christian propaganda created the vampire character of Bram Stoker's famous novel Dracula, who was Prince Vlad III of Wallachia, known as Vlad Tepes. Since the word tepes relates to "wooden poles", it is often thought that Vlad's nickname relates to his method of executing enemies of the State by impaling them upon wooden stakes. Hence, Vlad Tepes is sometimes said to mean "**Vlad the Impaler**". This, however, is completely untrue.

Vlad Tepes, a 15th-century Prince in Romania, founded the capital city of Bucharest in Romania. Dracula, means 'Son of Dracul' (or Dragon) as his father was known within the Grail fraternity of the Ordo Draconis (The Imperial Court of the Dragon) from 1431. However, the establishment's real fear of Dracula was not his harsh treatment of enemies, nor that he was a blood-sucking vampire. (He was O Rh Neg & garlic is toxic to O Rh Negs, their descendants house of Windsor (Saxe-Coburg-Gotha) prohibit garlic in their kitchens. The blood drinking might have come from a health related issue.)

The church feared his knowledge of alchemy and the fact that he was an operative Oupire (a venerated Overlord of the Rath) of the ancient Yulannu.

The **werewolves** propaganda, stems from a high druidic caste of kings in Ireland, Wales & England "wood lords" (called Weres or Wallans), their totem was the wolf (early predecessors of Heraldry) were families are identified by animals, plants, shells, gods & goddesses, etc, on their banners. The original Wallans were called Yulannu in Mesopotamia around 1800 BC. The Yule tradition venerated the goddess Barat Anna (Anu's wife Antu, mother of Enki), later she was identified with Diana of Ephesus (statue of Liberty & Venus). Britannia stems from Barat Anna.

The Ashina clan, a noble caste, carry the 16q24.3 "red gene" inherited from the Sumerian Anunas (Neanderthals), the root of the Dragon seed that permeates the royal lines: Merovingian, Carolingian, Tudor, Plantagenet, Stuart, Hapsburg, Hanoverian, Saxe-Coburg-Gotha, Guelph, Bowes-Lyon, Battenberg (Mountbatten), Guise, Savoy families and Transylvanian lineages.

The Davidic House of Judah married into the descent of the Merovingian Kings of the Franks. The **Merovingian** dynasty still maintains its legitimacy and will one day openly assert the divine right of their nobility to **rule the world as an angelic race of demigods, whose ancestors were the fallen angels**

Comets (planets) were used as propaganda (above is Marie Antoinette depicted as a dragon monster by the French nobles); Comets & kings were depicted as monsters or serpents with many horned fiery heads. Thunderbolts & combustible hydrocarbons In the tails of comets caused terrible conflagrations

The bloodlines of the Roman Catholic Church descend from Essau/Edom, Germany. Are enemies of the Dragon kings of Scythia, The Pictish (pixies) Scotts, Gnostic, the Davidic tribes of Judah, Tartarian empire, who carried the mtDNA of the Anuna goddess Lilith

The Holy Roman Church, through the donation of Constantine deposited the Merovingian right to Rule **(they want to Rule the World!)** & through Charlemagne, new monarchs were crowned by Papal consent

In 312 AD Constantine saw 2 Comets that looked like a cross over an orb or the Sun (Earth's orbit was closer to the Sun then), they caused much disease & destruction. Constantine made as statue of himself like Helios & said he has God & the Saviour. The Chi Rho symbol was based on the Comet as seen from Earth

The Dragon tribes say the Donation of Constantine was a forgery, and expect to Rule the World in the future

Several Comets were seen in 12 BC, 5 BC & 4 BC, but one fits Matthew's description, announcing the birth of the messiah. The Dragon lineage started with the Anunas, (Neanderthals & Denisovans) descends through the proto-Scythians, the Sumerians in one branch and the early Egyptians in another; the Phoenicians, the Mittani, back to the Scythians again through marital alliance, along to the Tuatha de Danaan and the Fir Bolg; down through their Arch-Druidic, Priest-Princely families to the Royal Picts of Scotland and the kings of the Horse Lords of Dal Riada; through to the Elven dynasty of Pendragon and Avallon del Acqs, and down to a few pure bred families today

Jesus & Buddha (Dragon lineage) hold a planet seen during their lifetime or time of death.

The Tarot is full of Rosicrucian symbology. The Vesica pisces represents plasma formations of planets heralding the birth of Kings & the womb of the Dragon Queens

The holy spirit & dove symbol of plasma tails & body of a discharging planet or comet. The Serpent John the Baptist stands on represents Enki's lineage, & the lily on the mountain represents Lilith

The Cathars, the Knights Templars, the Rosicrucians, some gnostic groups and fraternities stood up for the legacy of the Holy Grail, this led to the hideous tortures and executions of the papal Inquisitions and witch-hunts. They worshipped the head of John the Baptist, & were charged with sorcery & necromancy

The Rosi-crucis cup represents the Holy Grail succession of Messianic blood held within the chalice/womb of the maternal mtDNA, since before 3000 B.C. In 531 AD Venus approached (caused disasters & 52 yr Justianian plague killed 1/2 worlds population) later Mars & its moons. Two comets were seen (called Dragons). Prophet/ astronomer Merlinus predicted the death of Aurelius, reign of Uther Pendragon & Arthur's birth. Merlin, son of human princess & giant demon, interpreted the appearance of comets in the form of a fiery Dragon!

Historic King Arthur mac Aedàn of Dalriada in 575 of Carlisle, N England. Son of Pendragon King Aedan mac Gabran of Dalriada & Igraine of Avalon. Lancelot was also of the Royal Dragon Blood. SIGFRID OF LUXEMBURG
DRAGON DYNASTY

King Louis XIV said 'I am Jupiter' & depicted himself as the god Zeus holding Jupiter's Thunderbolts. Earth's elliptical orbit was closer to Jupiter, Venus & Mars c. 1680 & those planets + many moons caused disasters on Earth

Elizabeth I depicts herself controlling the weather, with Eyes & Ears that see & hear everything, with Serpent denoting Dragon lineage & wearing a necklace like a comet

Elizabeth I shown controlling the weather & Earth during the storms which sank the Spanish Armada. Bottom right a mermaid. Dress' patterns like comets. Upside down map on world globe (a sphere!)

To the right, Jupiter's shield is used as British propaganda: the British King controls Jupiter's thunderbolts causing disasters & destroying the French empire shown with snakes (descent from Dragon lineage of Ea + Lilith)

Shall the works & monuments of oppression of a wicked nation remain?

Shall the Lightning not burn the statue set up vs God of Heaven & his laws?

Destruction of the French Colossus.

Mysterious UFO on 1680 French Token ??

🕒 04 Mar 2016 Fri

Not a UFO, but depicts King Louis XVI's shield

A 17th century French token, known as an ancient jeton, a coin-like object used for counting or educational purposes, depicts an unusual yet interesting inscription of a flying saucer.

Swastikas & labyrinths, crosses i.e. were inspired on plasma tails of planets/comets

Some believe that it's the Biblical Ezekiel's wheel, the Bible's own tale of a UFO encounter where four beings emerge, each accompanied by a wheel. The wheels are gyroscopic, each like a wheel intersecting another wheel. When the winged beings rise into the sky, the wheels rise as well, or move in any direction to match them.

Others have argued that it looks like a shield. It also resembles the toy popularly known as alien ships in the N

Scott C. Waring, editor of UFO Sightings Daily mentions that this token is a proof of UFO sightings that were frequent in ancient times.

Ezekiel's wheel like cherubs, angels, swastikas, crosses, etc were the tails of comets (planets discharging plasma with different shapes) and not UFOs

This French jeton was minted somewhere between 1856 and 1680. Thousands of other jetons with different religious and educational designs were produced and used in Europe during the 16th and 17th centuries.

Origin of The 2 Pillars of Hercules with the words PLUS ULTRA:

Plus ultra (English: Further beyond) is a Latin phrase and the national motto of Spain. It is taken from the personal motto of Charles V (24 February 1500 – 21 September 1558), Holy Roman Emperor and King of Spain (as Charles I), and is a reversal of the original phrase Non terrae plus ultra ("No land further beyond"). This was said to have been inscribed as a warning on the Pillars of Hercules at the Strait of Gibraltar, which marked the edge of the known world. Charles adopted the motto following the discovery of the New World by Columbus, and it also has metaphorical suggestions of taking risks and striving for excellence.

Swiss	40	50	7	3		Blood type is a measurement that may go unnoticed for most of your life unless you need a blood transfusion or other surgery or medical condition. It may also become a concern when you get pregnant. In fact, when trying to get pregnant you should consider finding out your blood type. Studies have shown that certain blood types play a role in fertility and the ease/difficulty in getting pregnant. In fact, women with blood type O are thought to have a more difficult time getting pregnant than women with any other blood type, especially type A.
